PRESS RELEASE

PRESS RELEASE (B2C) REACTIA - A PRETTI & ICOMMOBILE JOINT VENTURE

REACTIA is a new platform that turns machine tasks like washing
dishes into valuable data pipelines powering better consumer
experience, improved product performance and hyper-targeted
services and advertising.

A consumer experience innovation agency and a white goods hardware
manufacturer have come together at CES to showcase an intelligent
washing system platform. No more worries about shrinking your favorite
sweater, no more discarded shirts or ruined bedsheet when a red sock
ends up in the wash. Instead, meet the more than 100,000 products
the technology is ready to carry laundry into the 21st century.

Based on your washing routine, REACTIA enables completely new
insights into your wardrobe. How often you wear a specific shirt, which
pieces you like to combine into one outfit. How much longer you can
wear that shirt before it should be replaced. What are the best size
profiles for future purchases and what brands might be appealing to you?

At CES, REACTIA has set up a live showcase with an intelligent washer
that demonstrates the power of this technology. The platform is available
for download on the REACTIA website.
